*President*  
*HCS Group*

**Program Overview**

*As new alternative payment models are introduced and change the healthcare landscape, so must the delivery of healthcare services along the care continuum. Acute Care Hospitals are faced with ever more regulatory requirements and expanding financial penalties, all to elevate the delivery of care across the healthcare system on a national scale.*

*These current changes are unique in that they are driving focus for Acute Care Hospitals to work collaboratively with members of the post-acute care continuum to cohesively manage patient populations through increasingly more aspects of a patient's post-acute care progression.*

*This panel presentation will cover the current healthcare landscape and will discuss current models and approaches utilized to meet the needs of the changing healthcare industry.*

**Cost: Members - \$35 / Non-Members - \$45 / Students - \$10**
